INDICATIVE SEAL

FORT DOUBLE TWIN LOCK (FDTL)

Pull-Tight Seal

Double locking mechanism for peace of mind.

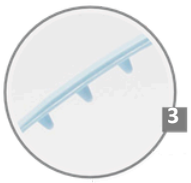

Fort Double TwinLock is special from other indicative plastic seals for its double locking mechanism in a one-piece structure. It has locking ribs on both sides of the strap for better grip and clear signs of tamper evidence. With a full body made of plastic material, full decomposition is achievable.

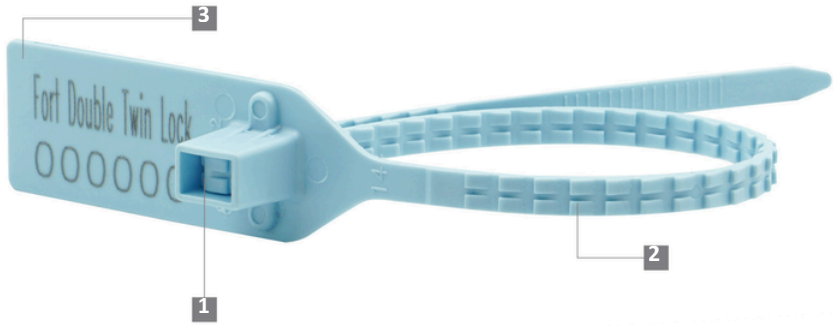

Applications:

- Retail Applications
- Postal Services
- Logistics
- Banking

PLASTIC PULL-TIGHT SEAL

1. The Fort Double Twin Lock features a double locking mechanism in its fully Polypropylene (PP) moulded body for added security and durability.
2. The locking ribs on the seal provide better grip and stronger endurance during application. Tamper evidence signs are obvious on the strap.
3. Spikes are placed behind the seal to provide better gripping on the application surface.
4. The larger flap allows ample space for identifier marking. Irreversible identifiers such as name, logo, serial number, barcode and QR code are laser marked on the flap.
5. Biodegradable additives for plastic material are available.
6. Tear-pff (TO) version is available for easy removal.
