INDICATIVE SEAL

SIMULOCK NEW VERSION (SSNV) & SIMULOCK (SSN)

Fixed Length Seal

Ring-shaped structure and inspection window for quick and easy inspection and security.

Simulock is the first seal ever produced in Mega Fortris. With along history of design and development, it now comes with an improved inspection window and neat design for quick sealing and easy inspection. Two versions of Simulock are available with two types of materials to accommodate the application and security.

Applications:

- Retail Applications
- Chemical and Oil Refinery
- Warehousing and Logistics
- F&B Applications

PLASTIC SEAL-FIXED LENGTH

1. The Simulock is moulded with Polypropylene (SSNV) or Nylon (SSN) material with an inspection window ultrasonically welded to its base for clear visual of locking and evidence of tampering.
2. One-way double locking mechanisms are embedded for easy application and prevent tampering.
3. The strap and breaking point are designed with additional security breaking lines for easy removal and clear evidence of tampering.
4. Two versions of Simulock available for different shapes of inspection window and tensile strength.
5. Biodegradable additives for plastic material available.
