SECURING THE GLOBAL SUPPLY CHAIN

With over 25 years of experience, our company has secured and protected your operations and assets.

TODAY,

The innovations and designs of Mega Fortris solutions provide comprehensive and reliable protection around the world.

Our strong global presence is strengthened by numerous offices and authorised distributors spanning across more than 33 countries.

OUR FACILITIES

From our initial Malaysian factory and office, we have grown to become a global entity with offices spanning across six continents to provide and supply our customers with the best quality and service. At headquarters, our factory has expanded to three facilities to accommodate our growth and your demand.

Directly across from the main factory is the operations for our Security Bags, which was opened in 2021.

With the Group's tremendous growth, our production facilities have simultaneously grown to support the ever-increasing demand of our products.

ACHIEVEMENTS

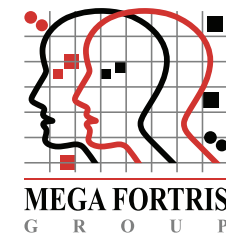

After 26 years of serving the industries around the world, Mega Fortris has experienced impressive growth due to the ongoing development of market demand and product design, striving to produce price competitive and high-quality security seals. Our commitment to excellence, innovation and integrity are the motivational factors driving us to stay ahead in the industry. The list beside shows some of the awards we have received for our significant achievements:

2020	CHT Pursuit of Excellence (Security Seal Manufacturer) Award 2020	<i>CHT Network Sdn Bhd</i>
2019	Asean Outstanding Business Award 2019 – Asean Master Class Award in RFID Security Excellence	<i>Asean Business Advisory Council Malaysia</i>
2018	Certificate of appreciation on business excellence best practice study visit	<i>Malaysia Productivity Corporation</i>
2018	Certificate of appreciation for the contribution in supplying “Stickers Hotline” to Shah Alam police headquarters	<i>Royal Malaysia Police</i>
2017	Sin Chew Business Excellence Awards 2017 for the category below: - Product Excellence Awards - CIMB -Sin Chew Regional Excellence Award	<i>Sin Chew Media Corporation Berhad</i>
2017	Selangor International Business Summit 2017 under the Business Excellence & Innovation Award	<i>Selangor State Government</i>
2017	SME Excellence Award for Business Dynamism	<i>Asean Business Advisory Council Malaysia</i>
2017	Certificate of partnership on business excellence best practice study visit	<i>Malaysia Productivity Corporation</i>
2016 - 2017	The BrandLaureate SMEs Best Brands’ Award Signature Branding – Manufacturing Security Seals	<i>The World Brands Foundation</i>
2016	Cyber Security Company of the Year	<i>Ministry of Science, Technology and Innovation and Cyber Security Malaysia</i> <i>Star Media Group Berhad</i>
2016	Star Outstanding Business Awards 2016 for the categories below: - Malaysian business of the year - Gold for best global market - Gold for best innovation - Silver for best brand - Certificate of merit (above RM25 million and above category) - Most awards won	
2015	Global Performance Excellence Awards under the World Class Large Manufacturing category	<i>Asia Pacific Quality Organisation</i>
2014	Industry Excellence Award 2014 under the Manufacturing Sector Award category	<i>Ministry of Investment, Trade and Industry</i>
2014	Global Performance Excellence Awards under the Best in Class Large Manufacturing Organisation category	<i>Asia Pacific Quality Organisation</i>
2014	MDBC Sustainability Award 2014 under the area below: - Best Business Sustainability by a multinational company - Innovation Pioneer Segment	<i>Malaysian Dutch Business Council (MDBC)</i>
2013	SIRIM Quality Award 2013 (Product)	<i>SIRIM Berhad</i>
2012	Certificate of Merit in recognition of being a Finalist of the FMM Excellence Award 2012	<i>Federation of Malaysian Manufacturers</i>
2012	FMM Excellence Award 2012, Manufacturer of the Year Award – Large Category	<i>Federation of Malaysian Manufacturers</i>

Mega Fortris Bio-Additive Enhanced Seals
Redefining the future of security, one seal at a time.

Amidst growing global concerns about environmental sustainability, Mega Fortris is taking proactive steps to address its ecological footprint.

Taking evolution one step further, Mega Fortris Group, who has always been committed to developing products that support a sustainable environment and to contribute to a better future, lead the way in offering eco-friendly products to our customers, partnering with them to minimise plastic waste. Our commitment to sustainability is evident in our installation of solar panels for renewable energy, as well as our practice of recycling raw materials, surplus items, runners, and recycled plastics in our manufacturing processes.

Building on a Foundation of Sustainability, we're proud to unveil our latest initiative, one that reinforces our steadfast commitment to environmental sustainability. By incorporating bio-additives into our entire range of security seal products, this evolutionary approach ensures that our products not only provide protection but also actively contribute to environmental sustainability.

To provide eco-conscious solutions on a wide array of applications, all Mega Fortris' security seal product lines with plastic content will include the BioSphere bio-additive from 13 May 2024, comprehensively securing the global supply chain while reducing our footprint.

By incorporating bio-additives, we're not just differentiating ourselves from the competition; we're setting a new standard for responsible business conduct. Our journey toward sustainability is evolutionary, driven by innovation and social responsibility.

So, what exactly are these bio-additives, and how do they work their magic? Essentially, the bio-additives serve as catalysts for anaerobic microbes, enabling them to break down plastics into byproducts such as low-weight non-toxic compounds, and water. By leveraging chemical mechanisms to disrupt the strong bonds inherent in plastic polymers, these additives facilitate the biodegradation process, paving the way for a circular economy where waste is minimised, and resources are conserved. The byproducts of degradation are both non-toxic to the environment and

compatible in recycling. This next step is a significant improvement in jointly sustaining the supply chain and the environment.

Central to our sustainability ethos is the establishment of an ESG working group, equipped with a comprehensive policy and strategy that aligns seamlessly with our overall business objectives and the United Nations Sustainable Development Goals. This strategic framework is integral to our operations, ensuring that sustainability is a guiding principle ingrained in our brand.

We're also taking proactive steps to educate our customers on the proper handling and disposal of our products. Through our ESG Materiality Topics management, we're paving the way for responsible consumption, one informed decision at a time.

Our vision extends beyond bio-additive resins. As part of our future vision, we're continuing our efforts to develop fully compostable, non-fossil fuel-based resin security seals. Together, let's redefine the future of security, one seal at a time.

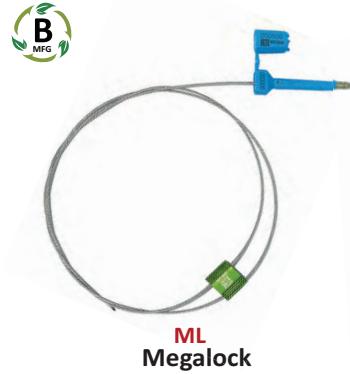

PREVENTION · PROTECTION · PEACE OF MIND

M: Material A: Application
 NY: Nylon
 PP: Polypropylene (Food Grade)
 ABS: Acrylonitrile Butadiene Styrene

These seals include the BioSphere bio-additive.
 Colour selections available in product datasheet.

HIGH SECURITY SEALS

ML Megalock
 M: High-impact PP, hardened pin and bush, anodised aluminium body, galvanised steel wire
 A: Containers, trailers, rail cars

MCL 350 Medium Cable Lock 350
 M: Anodised aluminium body, galvanised steel wire
 A: Containers, trailers, rail cars

MCL 350 2B Mega Cable Lock 350 2B
 M: Anodised aluminium body, galvanised steel wire
 A: Containers, trailers, rail cars

MCL 250 Mini Cable Lock 250
 M: Aluminum, galvanised steel wire
 A: Valve sealing, retail applications, food & beverage, transport & logistics

FMCL 350 Fort Medium Cable Lock 350
 M: Extruded aluminum body, non pre-form galvanised iron (GI)
 A: Valve sealing, retail applications, food & beverage, transport & logistics

INDICATIVE SEALS

MCL 500 Maxi Cable Lock 500
 M: Anodised aluminium body, galvanised steel wire
 A: Containers, trailers, rail cars

CBL Container Bolt Lock
 M: High-impact PP, hardened steel pin and bush
 A: Containers, trailers, trucks, rail cars
 *Product available in straight or angular pins.

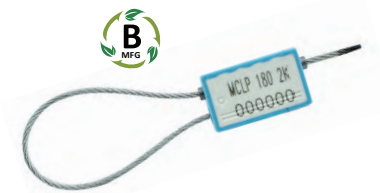

FCS Fort Container Seal
 M: High-impact PP, hardened steel pin and bush
 A: Containers, trailers, trucks, rail cars

MCLP 150 Mini Cable Lock Premium 150
 M: PP, zinc body, hardened steel, galvanised steel wire
 A: Authentication tagging, evidence securing, retail applications, food & beverage, transport & logistics, courier

MCLP 180 Mini Cable Lock Premium 180
 M: PP, zinc body, hardened steel, galvanised steel wire
 A: Valve sealing, retail applications, food & beverage, transport & logistics, courier

MCLP 180 2K Mini Cable Lock Premium 180 2K
 M: PP, zinc body, hardened steel, galvanised steel wire
 A: Valve sealing, retail applications, food & beverage, transport & logistics, courier

MF Bar
 M: High-strength steel
 A: Containers, trailers, trucks, rail cars

KLC 2K Klicker 2K
 M: High-impact PP, hardened steel pin and bush
 A: Containers, trailers, trucks, rail cars

INDICATIVE SEALS

DMSP
Domino SP

M: PP, tin-plated metal
A: Retail applications, chemical and oil refinery, warehousing and logistics, authentication tagging, food & beverage, courier

FL
Fleet Lock

M: PP
A: Retail applications, chemical and oil refinery, warehousing and logistics, food & beverage, courier

SSNV
Simulock New Version

M: PP
A: Retail applications, chemical and oil refinery, warehousing and logistics, food & beverage, courier

APAD
Airline Padlock

M: PP, acetal (POM)
A: Authentication tagging, aircraft carts, retail applications, food & beverage

FHASP
Fort Hasp Padlock

M: High-impact ABS, stainless steel
A: Aircraft carts, drums, switches, valves, utility meter & scales

MEHAP
Mega Hasp Padlock

M: High-impact Polycarbonate (PC)
A: Authentication tagging, aircraft carts, retail applications, food & beverage

MEPAD
Mega Padlock

M: High-impact PP Copolymers
A: Authentication tagging, aircraft carts, retail applications, food & beverage

DS
Dragon Seal

M: PP
A: Retail applications, postal services, logistics, banking

KES
KEESEAL

M: PP
A: Retail applications, postal services, logistics, banking

MPT
Mega Post Seal

M: PP, SUS304 metal jaw
A: Retail applications, postal services, logistics, banking

MFS
Mini Fast Seal

M: PP / NY, SUS304 metal jaw
A: Retail applications, fire extinguishers, logistics, banking

MFSL
Mini Fort Single Lock

M: PP
A: Retail applications, postal services, logistics, banking, cash-in-transit, food & beverage

MTS 7
Mini Tight Seal 7

M: PP / NY
A: Retail applications, fire extinguishers, petro-chemical, banking

FS
Fast Seal

M: PP / NY, SUS304 metal jaw
A: Retail applications, authentication tagging, logistics, banking, cash-in-transit, food & beverage

FS 3.5
Fast Seal 3.5

M: PP / NY, SUS304 metal jaw
A: Retail applications, authentication tagging, logistics, banking

FTL
Fort Double Twin Lock

M: PP
A: Retail applications, postal services, logistics, cash-in-transit, food & beverage

SPCBS
SP Cash Bag Seal

M: PP / NY, SUS304 metal jaw
A: Cash-in-transit, pharmaceutical, petro-chemical, retail applications, postal services, logistics, banking

TTSP
Triple Tight SP

M: PP
A: Retail applications, postal services, logistics, banking

MTW BH
Mega Twister Barcode Horizontal

M: General Purpose Polystyrene (GPPS), acetal, SUS304 cable
A: Utility meters & scales, chemical and oil refinery, transportation, banking

MTW BV
Mega Twister Barcode Vertical

M: General Purpose Polystyrene (GPPS), acetal, SUS304 cable
A: Utility meters & scales, chemical and oil refinery, transportation, banking

TAMPER-EVIDENT SECURITY BOXES

MCAB
Mega Secure Boxes
M: High-impact Polycarbonate (PC)
A: Hospitality and entertainment, evidence securing, retail applications, banking

TLCS
Triple Lock Casino Seal
M: PP
A: Hospitality and entertainment, evidence securing, retail applications, banking

GB Box
Gold Bullion Box
M: High-impact Acrylonitrile Butadiene Styrene (ABS)
A: Defense & law enforcement, high-value retail, chemical & pharmaceutical, hospitality and entertainment

ICAO STEB
M: Low Linear Density Polyethylene (LLDPE), Co-Extruded 3 layer
A: Airport and duty-free supply chain security

Generic STEB

M: Low Linear Density Polyethylene (LLDPE), Co-Extruded 3 layer
A: Gaming and leisure, cash-in-transit, courier, postal, energy, airline catering, airlines, money changer, hospital patient property bag, correction center prison property bag, toll booth collection, education examination paper

TAMPER-EVIDENT SECURITY LABELS & TAPES

Non-Residue Security Label 110mm x 30mm

Leaves no residue on the application surface.

- Barcode 128
- Duplicate Number Tab
- Quantity : 1000 labels per roll
- Standard colour : Blue

A : Aircraft exterior doors and panels, catering trolleys, tote boxes, ballot boxes, mobile phones, computer ports, office doors, cupboards, fuel caps, cash boxes, vehicle doors

Non-Residue Security Label 85mm x 25mm

Leaves no residue on the application surface.

- Barcode 128
- Duplicate Number Tab
- Quantity : 1000 labels per roll
- Standard colour : Red

A : Aircraft exterior doors and panels, catering trolleys, tote boxes, ballot boxes, mobile phones, computer ports, office doors, cupboards, fuel caps, cash boxes, vehicle doors

Partial Residue Security Label 85mm x 25mm

Void message left on the application surface.

- Barcode 128
- Duplicate Number Tab
- Quantity : 1000 labels per roll
- Standard colour : Red

A : Sealing boxes and cartons, envelopes, tote boxes, etc

Blue Continuous Security Tape

- Tape width : 50.8 mm | 2 in
- Roll length : 50 m | 164 ft
- Core I/D : 76 mm | 3 in

Designed for use on cardboard boxes, packaging and other similar surfaces. Tamper evident tape that "voids" when removed, with no numbers and no perforations. Will leave residue on application surface when removed.

Red Continuous Security Tape

- Tape width : 50.8 mm | 2 in
- Roll length : 50 m | 164 ft
- Core I/D : 76 mm | 3 in

Designed for use on cardboard boxes, packaging and other similar surfaces. Tamper evident tape that "voids" when removed, numbered and perforated every 152.4 mm. Will leave residue on application surface when removed.

Paper Dunnage Bags

- Helps prevent damage to goods during transit.
- Quick & easy to inflate
- Mega Flow Fast Filling Valve
- Can be deflated and reused.
- Available in various widths and lengths
- 100% recyclable
- Suitable for all climate conditions

Woven Dunnage Bags

- Helps prevent damage to goods during transit.
- Quick & easy to inflate
- Mega Flow Fast Filling Valve
- Can be deflated and reused.
- Available in various widths and lengths
- 100% recyclable
- Suitable for all climate conditions

Mega Flow Inflator

- One hand-operation
- Overflow air stream releases excess air from the top of the inflator
- Fast Inflation due to specially designed Venturi Mega Flow Inflator
- Safe and easy to use
- No trigger to pull or hold

Portable Dunnage Bag Inflator

- Ergonomic comfort grip handle
- Durable, lightweight design
- Cordless allows inflation without the need for compressors and compressed air lines
- Supplied with bespoke inflation nozzle, 2 batteries and a charger.
- Up to 3 hours of inflation time per charge, fast charging time less than 2 hours

LOAD SECURE PRODUCTS - Strapping

Composite Strap

- Available in sizes from 13 mm to 32 mm.
- As strong as steel but much safer to use.
- No sharp edges that could damage your products.
- Will not rust and resistant to all weather conditions and UV.
- High capacity to absorb shocks during transport.
- High Abrasion resistance due to polypropylene coating.

Hotmelt / Bale Strap

- Available in sizes from 5 mm to 32 mm
- Will not unravel
- Strong and lightweight
- Rust/rot-resistant
- No sharp edges that could damage your products

Woven Strapping

- Available in sizes from 13 mm to 19 mm
- Can be applied directly to finished surfaces
- No corrosion and easy handling
- High capacity to absorb shocks during transport
- A compact, lightweight and portable strapping system

Polypropylene Strapping

- Available in widths from 5mm to 16mm
- Suitable for lightweight strapping applications
- Supplied on either plastic reels or cardboard cores

Woven Container Lashing

- Available in widths from 25 mm to 40 mm
- Linear breaking strength available from 2000 to 5000daN
- High tensile strength
- Independently certified
- Cost-effective alternative to Ratchet Straps

Galvanised and Phosphate Buckles

- Galvanised and phosphate coated
- Available in sizes from 13 mm to 38 mm
- Used in combination with woven, composite and hotmelt strapping
- Self-locking design to maximise joint efficiency

Extruded Polyester Strapping

- Available in various widths from 13mm
- Cost-effective alternative to steel strapping
- Suitable for a wide range of applications
- 100% Recyclable

LOAD SECURE PRODUCTS - Containerisation

N5 & N6 Container Lashing

- The alternative to complex timber constructions
- Inexpensive solution for securing cargo in containers
- Pre-Sewn Polyester lashing belt system
- Easy hooking two vertical straps into existing container points
- The system can be further enhanced using Dunnage Bags and Anti-Slip Mats when appropriate

Quattro Strapping

- Uses eight lashing points instead of four to spread the load more evenly
- The four horizontal straps can be adjusted to suit the characteristics of the load
- Inexpensive solution for cargo securing containers
- The system can be further enhanced using Dunnage Bags and Anti-Slip Mats when appropriate

Plastic Slip Sheets

- Significant reduction in material handling costs
- Can be customised to fit any size load
- Eliminates the need for pallet exchange
- Reduces storage space required compared to pallets
- Reusable
- Recyclable

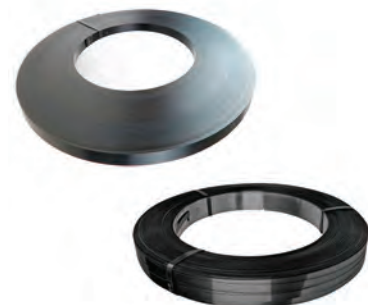

Desiccant Poles, Bags and Blankets

- Advanced calcium chloride-based moisture control
- Available in various forms: poles, bags and blankets
- No re-evaporation of absorbed moisture

Anti-Slip Mats and Rolls

- Increases the co-efficient of friction to 0.7
- Manufactured from high density granulated rubber
- Available in a variety of sizes and thicknesses

Steel Strapping

- Available as Ribbon Wound or Mill Wound
- Particularly suitable for securing products with sharp edges
- Available in a range of widths, thicknesses and finishes

Edge Boards

- Designed to utilise and stabilise pallets while protecting goods from corner damage
- Available lengths from 50mm to 6000mm
- Available with either a brown kraft paper or white moisture resistance outer wrap
- Manufactured from 100% recycled paper
- Fully recyclable as paper

Ratchet Strap

- Available in various lengths
- Available in widths ranging from 25 mm to 75 mm
- Manufactured to comply with EN 12195-2
- Custom printing and range of colours available

Lifting Slings

- Range of widths and strengths available for both multi-use and single use applications
- Available in flat web with eyelets or endless sling
- Custom-made to suit your requirements
- Fully tested in accordance with BS EN 1492-1:2000
- Test certificates issued with all orders

LASHING BUCKLES AND HOOKS - Edge Boards

Mobile Strap Dispensers

- Dispensers are available for:
- Composite Polyester Strapping
 - Woven Polyester Strapping
 - Hot Melt Polyester Strapping
 - Extruded Polyester Strapping (PET)
 - Steel Strapping
 - Polypropylene Strapping (PP)

Cambuckle Strap

- Available in widths ranging from 25 mm to 50 mm
- Variety of different coloured webbings
- Made specifically to meet customer requirements
- Custom printing available

Strap Tensioners

- Available in sizes 20 mm, 25 mm and 40 mm
- Easy to use
- Simple, robust design ensures minimum maintenance
- Low investment costs

LASHING BUCKLES AND HOOKS - Edge Boards

Lashing Hooks and Buckles

- Available in widths from 25 mm to 40 mm
- Linear breaking strength available from 2000 to 5000daN
- High tensile strength
- Independently certified
- Cost-effective alternative to Ratchet Straps

Plastic Edge Protectors

- Economic, reusable
- Protects product from strap damage
- Various sizes available to suit strapping width

Barrel Brackets

- Creates a straight edge to prevent strap from slipping around the barrels
- Suitable for use with strap from 13mm to 50 mm wide
- Various brackets available depending on drum design
- Weatherproof

Stretch Film / Pallet Wrap

- Contains minimum 30% recycled material
- Flexible and easy to use
- Excellent tear-resistance and cling properties
- Available in several thicknesses
- Hand Applications – Available in standard core and extended core
- Machine Grade – Available in various widths and strengths

Paper Roll Protector CPP60

- Developed in cooperation with leading paper mills
- Manufactured from 100% recycled material
- Suitable for protecting all soft edge products such as rolls of film, chipboard and plasterboard from damage caused by ratchet straps
